

The Stephens Group Mission believes: In using innovative technologies with effective teaching practices to help all students learn and that all students need to graduate with 21st Century Skills.

Using Digital Media In the Classroom Training Opportunities!

Join us for exciting one day trainings on using current digital media tools in your classroom.
You will leave with ideas to implement immediately!

The following trainings will be held at Brookfield Suites and Convention Center from 8:30-3:00. The cost of each training is \$100 for the day. Register for both February and May for just \$175! Credit is available from Cardinal Stritch for attending both the February and May sessions.

Check the Stephens Group Website for registration information...www.thestephengroup.com

February 16th :

Podcast Production with GarageBand

Bring an idea and a Mac and we'll turn it into a podcast! Learn the basics of podcasting and enhance it with sound effects, jingles, professional editing and an optional video track. As time permits, we'll learn how to publish a podcast series using iWeb and Dot Mac.

Required: An iBook, PowerBook or MacBook with iLife '08 (GarageBandv4) or iLife '06 (GarageBand v3)

Optional: Digital photos which visually enhance the topic of your podcast

Podcast Production with Audacity

Bring an idea and a Windows laptop and we'll turn it into a podcast! Learn the basics of podcasting and enhance it with sound effects, jingles, professional editing and an optional video track.

Required: Laptop with Audacity software installed (can be downloaded for free!)

Using Blogs and Wikis in the Classroom

Come to learn about the powerful digital media tools of blogs and wikis in your classroom. We will look at examples that are currently being used in classrooms around the country and will also learn how to set our own sites up for student use.

Required: Laptop with wireless capabilities

May 10th:

Advanced Podcasting Mac

In this workshop we will take podcasting one step further. We will learn how to create a vodcast, an enhanced podcast, how to upload podcasts and make them an RSS feed.

Required: An iBook, PowerBook or MacBook with iLife '08 (GarageBandv4) or iLife '06 (GarageBand v3)

Advanced Podcasting Windows

In this workshop we will take podcasting one step further. We will learn how to create a vodcast, an enhanced podcast, how to upload podcasts and make them an RSS feed. Participants will also learn how to create podcasts using Skype as well as how to broadcast other types of content.

Required: Laptop with Audacity software installed (can be downloaded for free!)

Free Digital Media Tools for Classroom Use

We will spend the day working with tools available on the web. We will specifically look at all of the Google tools as well as Microsoft Photostory 3.

Required: Laptop with wireless capabilities

Registration deadline for February Session is January 28th!
